Fabian Rensing

Software Engineer

frensing.de | frensing | Fabian Rensing

Currently

Software Engineer at Finanz Informatik.

About

As a software engineer I am dedicated to develop innovative solutions and work on technologies that simplify life. Working in a team with people from various backgrounds is important to me, as the best progress can only come from diverse collaboration. My experience ranges from working in companies and research groups to organizing holiday camps for children. In my work I excel in analytical problem-solving thinking and being able to comprehend and explain complex concepts both in technical and simplified terms.

Experience
